Xpress® Station

+1 (877) 959-4713 GLOBALMED.COM

Xpress® Station frees you from the space concerns of larger form factors. Customize your station to accommodate your examination needs using its innovative, modular design. With its slim footprint, built-in WiFi and Ethernet, Xpress is the perfect mobile telemedicine solution to seamlessly fit into small clinical spaces.

Efficient and Intelligent

- Simple to launch and use
- Customizable to your workflow
- Compatible with connected instruments
- Integrated software and hardware

Secure and Compliant

- Integrated security features
- Locking compartment option, prevents unauthorized usage

Sleek and Mobile

- Sleek, ovular design
- Small footprint and five-wheel base
- Highly maneuverable in confined spaces

For more information on the Xpress Station and accompanying peripheral devices, call **+1 (877) 959-4713** or visit **GlobalMed.com**.

*Xpress has multiple components and configurations

Component Specification	Description
Dimensions	20”W x 24”L x 53”H (lowest position, excluding camera)
AC Power	90V to 220V, 50Hz to 60Hz Voltage: Nominal 120V Input Voltage Range: 90VAC- 148VAC Frequency: 60Hz ± 3 Hz Plug Type: NEMA 5-15P
UPS Power	CyberPower™ UPS Sealed Lead-Acid (SLA) VA 1000VA Watts 600W Size 12V/9AH Typical Recharge Time: 8 hours
Outlets	Ethernet and AC power, located on back of base shell
Computer	Integrated Dell® 7050
Ports	USB hub (4 ports) 8-port switch within base
Codec	SX20 Cisco® Codec
Display	27” LG Monitor 22” LG Monitor Dual 27”/ 22” Monitor with swing arm Dual 22”/22” Monitor with swing arm
Camera	PTZ camera, i1000
Sound	Dell® Sound Bar 17.4”W x 2.4”D x 1.4”H Speaker Type: Active 1 x sound bar 5 Watt - 90 - 20000 Hz
Table Top	19 1/2”W x 20” L; Table top height range is 33" to 44"
Connectivity	Ethernet, WiFi, 4G
Storage	Bin storage within tabletop, with combination lock
Cables	10’ Ethernet cable reel, 8’ power cable reel w/ reels 8’ coiled power cord, 8’ retractable Ethernet w/o reels
